

CAT6 24-PORT PATCH PANEL

Part Number: CLA04-SC6PNA24-SC6

Part Number: CLA04-SC6PNA24-UC6

PRODUCT INTRODUCTION

The CAT6 patch panel is loaded with tool-less keystone jacks, which meet or exceed the transmission standard of CAT6. The performance is beyond CAT6 350 MHZ hardware connections standard and widely used in the horizontal cabling in equipment room and intermateable terminal.

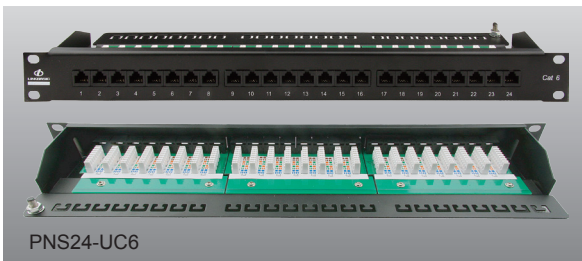

PRODUCT FEATURES

- Individual design with simple, compacted out looking.
- It complied with the human anthropology. Tool-less design for the shielded keystone jack.
- 110 type impact and punching tool for the unshielded keystone jack
- Special PCB circuit board design can reduce the interference and keep high allowance
- Zinc alloy shielding shell for the shielded keystone jack.
- High tensile PC materials for unshielded keystone jack.
- Available in T568A and T568B
- Contact: phosphor bronze with 6 to 50µg gold plate
- 23AWG
- Contact insertion for 1500 times
- The termination protective cap at the back of the module with buckle lock type design, can guarantee the cable to avoid excessive bending after termination, or fall off and the protection of electric shock
- Fully compatible with RJ45 connector, suitable for CAT5E level or lower application
